

NEWS FLASH FROM THE SEMINAR...

8 May 2016

Our Seminar is over—a conclusion that falls providentially on the Feast of the Ascension and the 50th edition of World Communications Day. And we, apostles of Jesus Christ in the world of communications, are returning to our countries and communities more convinced than ever of our need to be profoundly rooted in Jesus Master, Word and Eucharist, and to become “communicators of life” today.

Our last speakers focused on a very “charismatic” theme: the pedagogy of Fr. Alberione’s integrality, with explicit reference to the “four wheels,” adoration, and Mary, Queen of Apostles, the icon of integrality.

Each sister’s commitment was fundamental to creating communion, collaboration and an integration of experiences among us. The joyous climate that pervaded the atmosphere of the Seminar was reinforced by the powerful motivations of the participants, who poured the best of themselves into the event by means of their docility to the intense, although flexible, pace of the days; their reflections on the input received; their profound sharing, and their readiness to detach themselves from personal viewpoints and focus on shared essentials.

Each one is taking home with her the abundant wealth of this experience and a particular “light” to illuminate her journey. Each one made a contribution to summarizing, in a few lines, the orientations to be offered to our upcoming Interchapter.

Thank you, sisters, for your affectionate presence and prayers—they were very efficacious! We send you our warmest greetings by means of our big smiles.
